Kevin Kim

Software Engineer

Glendale, CA   kebonkim@gmail.com   Portfolio   Linkedin   GitHub

Skills

React, Redux, JavaScript, HTML5, CSS3, Python, Flask, SQLAlchemy, Alembic, wtforms, SQL, Sequelize, Express.js, Node.js, PostgreSQL, Heroku, JSON, Git

Projects

WinterTrails   **Live Site** | **Github**

JavaScript, React, Redux, Python, Flask, SQLAlchemy, HTML5, CSS3, Heroku, Postgres, Aws

An All-Trails clone where users can find snowboarding/skiing trails across the U.S.A.

- Discovered a different way to show validations in forms which improved a better understanding of React and Javascript.
- Inspected each file across the project which further deepened a keen eye for detail.
- Enhanced a better user experience by not providing any deadlinks or buttons on each page.

Artsy   **Live Site** | **Github**

JavaScript, React, Redux, Python, Flask, SQLAlchemy, HTML5, CSS3, Heroku, Postgres

An ecommerce, Etsy inspired site where users can sell and purchase products.

- Explored different Javascript packages to further improve the UI experience for users.
- Identified major errors across the team's code which improved a skill in debugging.
- Promoted good Git ethics/communication with the team to avoid major problems from Git conflicts.

Airbb   **Live Site** | **Github**

JavaScript, React, Redux, Express.js, Sequelize, HTML5, CSS3, Heroku, Postgres

A clone of AirBnb where users can find homes that are suitable to rent for a vacation.

- Formulated a well thought out plan of how to execute the project from start to finish with the use of Kanban boards.
- Designed key components that reflect similar functionalities from the actual Airbnb site.
- Reviewed previous written code to further improve the application in terms of readability and functionality.

Experience

Barista/Cashier | It's Boba Time | September 2014 - August 2019

- Demonstrated positive customer service which led to increased positive reviews on Yelp.
- Established good communication with the team to maintain an efficient working environment.
- Monitored opening and closing procedures and offer support/training to working staff.

Education

App Academy | 2022 | Online

Immersive software development course with focus on full stack web development

California State University of Northridge | 2018 | Northridge, CA

2015 - 2018 Bachelors of Arts in Liberal Studies
